(O)-1108 (Rev. 6-81)

## (PERMIT TERMS CONTINUED)

The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights. Any water pumped and not used for mining and milling purposes shall be injected or infiltrated back to the Kelley Creek Groundwater Basin. It is understood that this right must allow for a reasonable lowering of the static water level.

The State Engineer will retain the right to require additional monitoring. The permittee, on a schedule acceptable to the State Engineer, shall prepare and present an update on the activities of the mine and the monitoring on a periodic basis, but not less than two times per year.

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering project. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030.

The total combined duty of water under Permits 49633, 49634, 50853, 50854, 52046, 52047, 52048, 52049, 52050, 52051, 53339, 53340, 53341, 58919-T, 58920-T, 59012-T, 59202-T, 59203-T, 59220-T, 59348-T, 59349-T, 59386-T, and 59387-T shall not exceed 6,121.0 acre-feet annually.

This temporary permit is issued subject to the terms and conditions set forth in the State Engineer's Ruling No. 3606, dated May 19, 1989.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on April 19, 1995 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
